

# FILL-RITE®

A GORMAN-RUPP COMPANY

### Motor Protection

On-board thermal protector prevents motor from overheating due to continuous usage

### Built to Last

Durable cast-iron construction is designed to stand the test of time in the toughest environments

### No Mess Nozzle Storage

Vertical nozzle storage eliminates mess by preventing fluid from dripping onto your tank

### Rotary Vane Technology

Maintains consistent flow performance over the life of the pump

### Simple Security

Use a padlock with the integrated locking bar to easily prevent theft

### Quick Maintenance

Hassle-free design allows you to perform service rapidly

### Fluid Flexibility

Compatible with diesel, gasoline, kerosene, mineral spirits, B20, and E15

### Bung Mount Configuration

Perfect for mounting onto aboveground fuel storage tanks

### Ultimate Safety

Engineered to exceed the industry's most stringent safety standards

# 700 Series
