PetrClear

SLOW FLOW INDICATOR FOR WATER

- Detects water and slows flow for neat gasoline, diesel, biodiesel and ULSD fuels

INTERCEPTION OF PHASE SEPARATION IN ETHANOL FUELS

- Filters' extreme restriction of flow equates to a virtual shut-off
- Filters' reactive chemical core performs quickly to prevent contaminated fuel from passing through the filter into consumer's vehicles

**TEXTURED
PAINT**

TEXTURED PAINT

- Provides better grip for easier installation & removal
- Helps technicians avoid spills during filter changes

FULL COLOR CODING

- Instantly know what functions the filter performs
- Helps technicians quickly identify the correct replacement filter

PetroClear Ships From Factory - Not Stocked Due To Higher Expense But Available Upon Request
(Lead Time To Apply)
